## Description:

At the Threshold of Alchemy is a brutally realistic book of poetry. By immersing himself in the particular details of his most meaningful moments, John Amen transforms hurt into poems that are both imagistic & lyrically expressive. With metaphoric daring and offbeat grace, he guides us through haunting and sometimes violent memories of roving through Americas southland. Includes the major 260 line poem-sequence Portraits of Mary, hailed by poet Jared Smith as perhaps the most complex, intricate, and thoroughly honest love poem in all of contemporary poetry. Holding a compass below the stars, his surreal imagery unfolds like origami. A thoroughly human book of memorable poems of great intensity by one of

our best younger poets.

I hereby attest to the malevolence of the atom - John Amen  
At the Threshold of Alchemy is a collection of poetry which gives the reader a strange yet beautiful and mystical combination of spirit and flesh, emotion and sensation, modern and ancient. The poet, John Amen, conveys a unique perspective on life, relationships and even religion. Much of his poetry is brief and profound. In From Tibet a person rescues a Buddhist holy man from soldiers who are tracking him. Lineage is a reflection on the desperation of life passing on from one generation to the next. In a few short lines, the poet renders an entire scene or conveys a conversation which leaves one pondering his words. This is a powerful style and requires a quiet space to thoroughly grasp the nuanced language. Sickness is a bad boat gone belly-up. The metaphors are striking and conjure up powerful images for comparison. Alchemy is the study of transmuting one form of matter or energy into another using a blend of science and magic. It is the ancestor of chemistry and biology. In this collection, Amen engages this primordial state while maintaining a postmodern awareness. For example, in the poem 'All Night a cast of historical figures interact almost randomly, in absurd and profound ways simultaneously. Many of the poems flicker between past and present. Mary returns: we forgot to synchronize our Rolexes. She tosses me a Coptic cross wrapped in a snakeskin, strikes warrior poses on the sidewalk as her driver doles out business cards. Sacred and profane are also married together in verse and stanza. It seems it is not Amen's intention to shock but rather to show the arbitrary nature of such categories. The sacred and profane define one another in a yin-yang duality but also necessitate each other's existence. Not everything God tells me is worth repeating. One cannot help but sense that there is in fact something profound Amen may have intentionally left out. It is not clear if he does not wish to reveal it for fear it is not worth repeating or if instead, he wants the reader to fill in those blanks. Either way, the poetry leaves one in a reflective mood, perhaps inspired but mostly thoughtful. I would recommend this compilation to anyone who enjoys visceral and thought-provoking poems. It may be necessary to read each one more than once to consume every layer of meaning and reference yet it will be time well spent.
